

ESOS Energy Audits – Peter Brett Associates

The Client

Peter Brett Associates (PBA) are a large firm of planning and civil engineering consultants with 20 UK offices and a Head Office in Reading, Berkshire.

PBA qualified for ESOS Phase 1 and appointed John Mulholland of Mulholland Energy as their Lead Assessor to guide them through the ESOS process.

The Challenge

The challenge was to assemble and review the data and advise on an ESOS strategy in a short timescale.

The Result

The work was completed on time and to the client's full satisfaction.

The Reaction

John Mulholland acted as ESOS Lead Assessor for PBA's ESOS Phase 1 compliance in 2015. John provided oversight to our ESOS Phase 1 compliance including:

Review of consumption data and identify gaps to be filled.

Advice on the determination of "significant energy consumption"

Review of PBA ESOS audit reports and approve energy saving opportunities identified

Review overall ESOS Assessment including the Evidence Pack and sign off.

John was great to work with and provided clear and helpful guidance to ensure our ESOS Phase 1 compliance was successfully completed. I would recommend John to others requiring ESOS compliance services.

Dan Ulanowsky - Principal Sustainability and Energy Advisor - Peter Brett Associates LLP
